

# Forex DJ Market PRO Strategy EXPERT ADVISOR

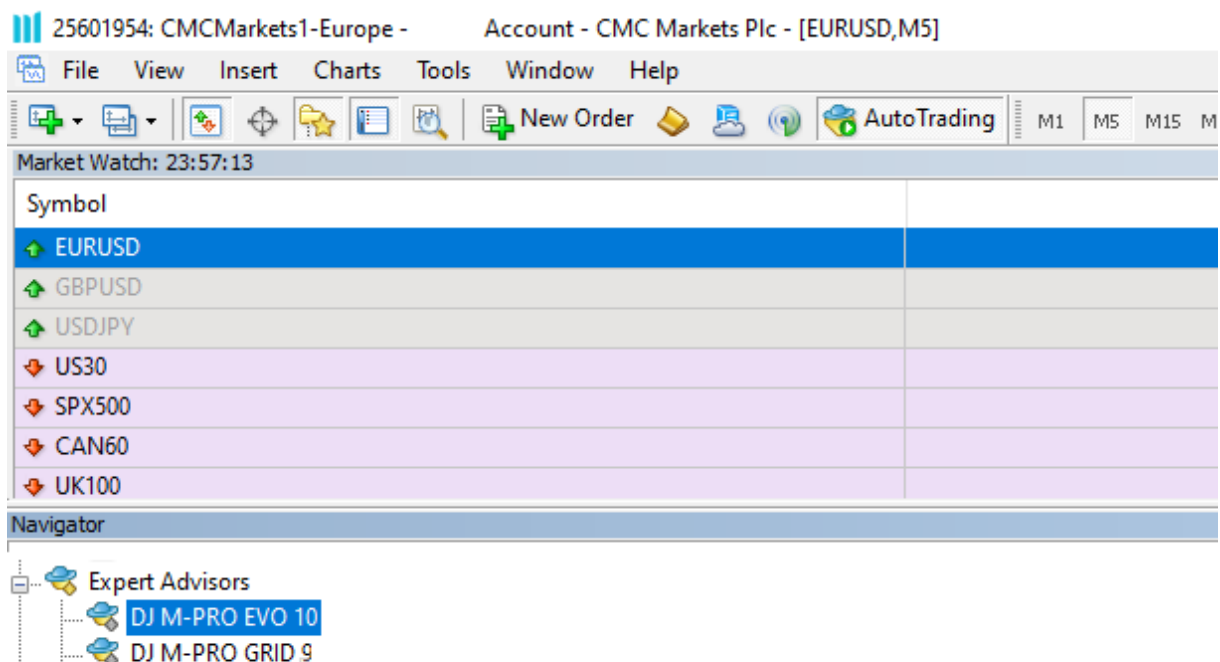

## Expert installation

Open MT4 platform. Click: File/Open Data Folder. Inside click: MQL4/Experts – and paste two expert files.

- Paste presets files to Presets folder.
- After finished restart your MT4 platform for changes to apply.
- Drag an expert from navigator window on the chart.

**NOTE: PRESET FILES ARE OPTIMIZED FOR EURUSD M30 TIMEFRAME**

- When a new window appears, select 'inputs' tab, click LOAD and select the right preset file.
- EVO10 (for DJ PRO EVO EA)
- GRID9 (for DJ PRO GRID EA)
- After selection click OK

**Expert will be activated with the first market tick.**
